NEGLECT OF \$2.50 JOB COSTS CITY \$11,500

Street Hole Repairs Could Have Been Made at an Expenditure of Small Sum.

A hole in a city street, that could have been repaired for \$2.50, less than a year ngo, cost the city \$11,500.

A cave-in a foot square and three feet deep occurred near the curb line in front of a house at 1345 South 31st street early last apring. On the night of March 31, 1914, 13-year-old William Donaghy, of 1332 Bouth 31st street, fell into the hole.

A jury in the Common Pleas Court on Tuesday decided that the tubercular condition of the boys' hip, that doctors said was due to the fall, was worth \$11,500, as nearly as they could balance money against health.

According to records of the Highway Bureau, the depression in the street had existed for about two months prior to the accident. That information was ob-

tained by the bureau from neighbors after the accident.

There is no record in the bureau to show that any report had been made of the dangerous condition of the street by the policemen on that beat or by the high-way inspectors in that district. The High-way Bureau records further set forth that way Bureau records further set forth that the fault was presumably caused by a cave-in over the location of a ditch opened by the United Gas Improvement Company. The hole has been refilled at an approximate cost of \$2.50. The delay resulted in amassing the penalty of \$11,-

The jury said the injured boy should have \$10,000 and that \$1500 should be paid the father as remuneration for physicians' fees and other costs.
